

Tutor: Paul

Qualifications:

**Bsc Hons Lancaster University (Geography and Geology)
1987 - 1990**

**PGCE Birmingham University (Geography and History) 1991
– 1992**

Taught full time in 5 different schools in the north west of England for over 30 years, for 25 of them as Head of Subject, Head of Faculty or a Leader of Learning.

Worked as an advisor for AQA working with other local schools in setting up AQA exam courses and worked for Bolton Metro in running advisory sessions for geography. Been involved in working with schools to raise the attainment in examination results in geography.

I have been a team leader, examiner and moderator of coursework at both GCSE and A level for over 29 years working for **AQA, OCR, CIE** and **EDXCEL** and also undertake verification of BTEC courses.

Availability: Flexible weekdays and weekends during term time and holidays. Available from 4pm weekdays during term time, all day during holidays.

Testimonials:

“Paul has been an excellent A-Level Geography tutor for our son. He soon established a supportive working relationship and developed a relevant structure for revision sessions after quickly assessing our son's needs. Besides knowing the subject very well, Paul was also able to communicate helpful strategy tips that immediately paid off in higher marks in practice mocks. We would not hesitate to recommend Paul to other students wishing to increase their subject understanding and exam success.”

“Paul has been tutoring my son for the three months before his geography A-Level. In that time, my son’s knowledge and understanding of the subject has grown immensely, with Paul’s

patient and clear explanations. Paul is clearly very experienced and through discussion, modelling and visual graphics, he has helped my son with exam technique. All of the help and reassurance that he has given has been invaluable and has increased my son's self-confidence around geography. Paul is very good at communicating with both the student and parent and is also flexible with lesson times. I can't recommend him enough."

"Paul had tutored my son in A-Level geography for year 13 and brought him from a C to an A in his final exams. He is a considerate teacher, who made sure my son fully understood all the content in a simple way, which helped him do really well in his A-Levels. I could not recommend Paul more if you wish your son/daughter to do well in Geography!"

"I started work with Paul a few months before my exams after my A-Level mocks didn't go particularly well where I struggled with the longer form questions and in my sessions with Paul he helped me dumb down the question and actually understand what the question was asking of me and what I needed to write in the correct format which helped me go from a low C in my mock to an A in my final exam which I was very happy with."

"Paul has been a great help with my Geography studies. He explained things clearly, was very patient, and made difficult topics easier to understand. Thanks to his support, I was able to achieve an A* in Geography. I would strongly recommend him to anyone looking for an outstanding tutor."
