

Tutor: Liz

Bachelor of Science – Geography and Botany, University of Durham, 1976

PGCE – University of Durham 1977

Experience:

Over 30 years of experience of teaching A level Geography in both state and independent schools, most recently in a highly academic sixth form college in Cambridge and now offering support tuition at an independent sixth form college. I am an experienced examiner, having marked A level Geography for both **OCR** and **CIE** for over 15 years.

I like to concentrate on the big ideas which underpin the syllabus content to build understanding of the processes the specification covers, and the purpose and relevance of the many and diverse case studies students are asked to study. In addition, I concentrate on exam strategy. I cover a range of techniques that can be used in low, middle and high tariff questions in order to build the confidence needed to maximise the use of exam time. Lessons will be run via zoom/ teams and will be tailored to individual requirements to aim to address the learning issues and syllabus areas requested by the student.

Availability:

Flexible weekdays and weekends during term time and holidays. Available from 4.30 pm during term time and on request during holiday

Testimonials:

“Liz was extremely helpful when we tapped into her services last year. The A level geography went well with an A*!”

“Liz was a fantastic tutor right from the beginning. My daughter was put completely at ease. Liz was highly reliable and focused with amazing experience. She gave great feedback and homework when needed. I would highly recommend her as an A-level geography tutor.”

“I had the final paper today which I think went well! I just wanted to send a message to thank you for all your help over Easter. Your lessons were so beneficial and I think my writing in my exam was so improved thanks to you.”

“Despite her doom and gloom predictions xxxx got an A in geography and B in psychology (just a few marks short of A) – she was very pleased with both. I’d be grateful if you could pass on our thanks to both Liz and xxxx for their time and support over the last 1-2 years. She goes up to Nottingham University this weekend.”

“We just wanted to thank you and Liz for all your assistance in helping xxxx get through her Geography A level. She improved her grade and one of her papers went from an E to an A!! As a result she is off to UCL and absolutely thrilled.”

“When I opened my results, I couldn't believe it and had to take some time to compose myself before telling my parents. All As in Geography - even my GEOG1 resit! Thank you so much for always motivating me to do better and telling me not to doubt myself and worry (but instead to "take a deep breath and just start because you know this")!”
