

Tutor: Paul B.

Qualifications:

I have a BSc honours degree in Geography and completed my PGCE in Geography at the University of Sheffield. I have extensive experience in teaching Geography from KS2 to KS5 in Junior, Comprehensive and Grammar schools. For the last 20 years I have worked in a Selective Grammar school in Buckinghamshire as a Head of Geography and then Assistant Headteacher, where I have taught both GCSE and A level geography, which has included preparing students for Oxbridge entrance.

Experience:

I have taught the KS2 and currently teach the KS3 National curriculum in Geography. I have also taught a wide range of GCSE specifications. In the last 2 academic years I have taught AQA, Edexcel and the Cambridge International IGCSE. I have also taught a range of A level specifications, most recently the Edexcel, AQA and Cambridge International A level. I always ensure that my lessons are tailored to meet the needs of my students, enabling them to reach their potential and achieve their goals. My online lessons have a varied style, drawing on a range of resources to make the subject relevant and highly engaging. I have tutored Geography using online platforms such as Teams, Google Meet and Zoom. I have a wide experience of teaching KS3, GCSE and A level students from a wide range of backgrounds including UK and International students and from state and private schools, always with the common aim of supporting them in achieving the best grade outcome possible.

Availability:

I am available most evenings between Monday and Friday after 5pm. I can also be available during the school holidays. Weekends may be possible.

Testimonials:

Paul supported my daughter through Year 13, he did a great job of building her confidence with the Physical geography modules. He listened to her needs and tailored the lessons to ensure that any gaps in her knowledge and understanding were addressed. His calm and reassuring manner really was something that my daughter and I appreciated.

Paul started tutoring our son after the Y12 Summer exams as he was finding it difficult to improve on his exam technique. His use of model answers and mark schemes in lessons really helped our son to develop his essay writing skills. Many thanks for all your expert guidance!

Our daughter was struggling with her GCSE Geography course in Year 10. Paul was fantastic in not only helping her to understand the topics, but he also reignited her enthusiasm for the subject. Our daughter really enjoyed the lessons with Paul.

My son started lessons with Paul after his Y11 mocks did not go as planned. Paul identified the aspects of the course that needed focus and took the time to speak with me and my son to create a pathway that was perfect for what my son needed.

Paul was a great help to our daughter who really needed help with writing up her NEA coursework after her fieldwork. Paul not only helped her to organise her write up, but also provided her with the precise advice needed to achieve the outcome she needed. We are grateful for the support he provided. Many thanks!

Our son loves geography and wanted to learn more about the subject than was being provided in school. Paul worked with him throughout Year 7 and 8, he made the lessons exciting and meaningful. My son's knowledge and understanding of geography really came on leaps and bounds. He always looked forward to the lesson each week, thanks for all your hard work with our son.
