Tutoring approach

I decided in 2019 to move away from the mainstream classroom in order to focus my time on students who could benefit more from a 1:1 approach. Building a strong relationship with my students is of paramount importance and, in my opinion, leads to better engagement and progress. I work with children of all abilities and needs across a range of qualifications and exam boards. I am experienced in securing top grades for students of a high ability, as well as supporting those who have become alienated and disenfranchised from the classroom. My lessons are always centred on the needs of the pupil; I create a relaxed, friendly environment where students can grow and develop at their own pace. For those students seeking top grades, I tailor lessons to offer bespoke guidance on how to exactly meet the requirements of the mark schemes. I have useful experience in the examining sector which allows me to coach students to reach their full potential.
